

CE

Troldglas A/S
Finnmarken 2, Jels
6630 Rødding

EN 12150-2

Thermally toughened soda lime silicate safety glass, intended to be used in buildings and construction works

Characteristics:

Resistance to fire	NPD
Reaction to fire	A1*
External fire performance	NPD
Bullet resistance	NPD
Explosion resistance	NPD
Burglar resistance	NPD
Pendulum body impact resistance	3(C)0
Resistance against sudden temperature changes and temperature differentials	200K
Wind, snow, permanent and imposed load resistance	10 mm
Direct airborne sound insulation	33 (-2; -3) dB
Thermal properties	5,6W (m2K)
<u>Radiation properties:</u>	
Light transmission and reflection	NPD
Solar energy characteristics	NPD
