

CE

Troldglas A/S
Finnmarken 2, Jels
6630 Rødding

EN 12150-2

Thermally toughened soda lime silicate safety glass, intended to be used in buildings and construction works

Characteristics:

Resistance to fire	NPD
Reaction to fire	A1*
External fire performance	NPD
Bullet resistance	NPD
Explosion resistance	NPD
Burglar resistance	NPD
Pendulum body impact resistance	1(C)3

Resistance against sudden temperature changes and temperature differentials	200K
---	------

Wind, snow, permanent and imposed load resistance	6 mm
---	------

Direct airborne sound insulation	31 (-2; -3) dB
Thermal properties	5,7W (m2K)

Radiation properties:

Light transmission and reflection	0,70/0,13
Solar energy characteristics	0,55/0,11
